📍 Toril, Davao City, Philippines

About Me

Versatile Full Stack Developer and Data Analyst with a passion for transforming raw data into real insights. A creative problem solver adept at designing applications. Bridging the gap between front-end elegance and back-end efficiency, I bring a unique blend of technical expertise and acumen to drive innovation and elevate user experiences.

Experience

ROC.PH | April 2023 - May 2023
Backend Web Developer Intern | Junior Assistant Team Leader

- Developed the backend portion of the company's HRMS website and refactored existing code
- Designed the prototype of the company's ticket helpdesk chat, and the prototype of the Employee Reports View functionality
- Developed the company's ticket helpdesk chat embedded within the HRMS website along with the rest of the backend team
